CLARK COUNTY REGIONAL FLOOD CONTROL DISTRICT AGENDA ITEM

SUBJECT:

GOWAN OUTFALL, ALEXANDER ROAD - DECATUR BOULEVARD TO SIMMONS STREET

PETITIONER:

JENNIFER E. DOODY, P.E., CFM, DIRECTOR OF PUBLIC WORKS CITY OF NORTH LAS VEGAS

RECOMMENDATION OF PETITIONER:

THAT THE REGIONAL FLOOD CONTROL DISTRICT APPROVE AN INTERLOCAL CONTRACT FOR DESIGN FOR THE GOWAN OUTFALL, ALEXANDER ROAD - DECATUR BOULEVARD TO SIMMONS STREET - NLV04K17 (FOR POSSIBLE ACTION)

FISCAL IMPACT:

	CURRENT
Design Engineering	\$1,921,156
Environmental Mitigation	\$ 10,000
Total ILC Value	\$1,931,156

BACKGROUND:

The Gowan Outfall System (Structure Nos. GOOF 0375, 0325, 0285 and 0275) is identified in the Regional Flood Control District's Ten-Year Construction Program with design scheduled to begin in fiscal year 2016/2017.

This interlocal contract applies to design and environmental mitigation of 8,515 total feet of various sized storm drain within Alexander Road between Decatur Boulevard and Simmons Street. Specifically, the system is comprised of 2,700 feet of twin 12 foot by 8 foot Reinforced Concrete Box (RCB) from Decatur Boulevard east, followed by 5,300 feet of twin 14 foot by 8 foot RCBs and completed with 515 feet of a single 16 foot by 8 foot RCB and a single 14 foot by 6 foot RCB (side by side) to Simmons Street.

This storm drain system is identified in the CCRFCD Master Plan and will connect to an existing system within Alexander Road at Decatur Boulevard and Simmons Street.

Respectfully submitted,

CLARK COUNTY REGIONAL FLOOD CONTROL DISTRICT AGENDA ITEM

SUBJECT:

PRESENTATION ON THE HEMENWAY SYSTEM, PHASE IIA IMPROVEMENTS

PETITIONER: JIM KEANE, CITY ENGINEER CITY OF BOULDER CITY

RECOMMENDATION OF PETITIONER:

IT IS RECOMMENDED THAT THE CLARK COUNTY REGIONAL FLOOD CONTROL DISTRICT ACCEPT A PRESENTATION ON THE HEMENWAY SYSTEM, PHASE IIA IMPROVEMENTS – BOU01D17 (FOR POSSIBLE ACTION)

FISCAL IMPACT: None by this action

BACKGROUND: The Hemenway System, Phase IIA Improvements project is described in the 2013 Master Plan Update as Facility Numbers HMTH 0034, HMLM 0066 and 0085, HMWA 0158, 0173, 0175 and 0182. The proposed improvements include: construction to install riprap erosion protection on an existing berm; increase existing inlet capacity including concrete aprons/flatwork; expansion of an existing sediment basin with associated riprap; gabion baskets and concrete aprons/flatwork; maintenance access road; new sediment basin and concrete lining of an existing natural channel; replacement of existing storm drains with 12'x4' and 8'x4' reinforced concrete box culverts to increase capacity and other appurtenances as may be necessary to control floodwaters. Design drawings and specifications are 90 percent complete, the City of Boulder City owns all of the land except for the portions in the US93 right-of-way, and all necessary permits for this project have been acquired.

The USACOE has reviewed the project and determined that work proposed in the project is authorized by Regional General Permit Number 7 and authorization was issued in July 2016. The 401 Water Quality Certification was granted in July 2016 by the Nevada Division of Environmental Protection. The Section 8 Analysis was found to be acceptable by Clark County Regional Flood Control District Staff.

Representatives from the design consultant Advantage Civil Design Group, LLC and the City of Boulder City staff will be available to respond to any questions following the brief presentation.

Respectfully submitted,

Im Keane, P.E., City Engineer

RE: Hemenway System, Phase IIA Improvements— HMTH 0034, HMLM 0066 and 0085, HMWA 0158, 0173, 0175, 0182

Dear Mr. Parrish,

The design plans and specifications prepared by Advantage Civil Design Group, LLC for the above referenced project, indicated on "Exhibit A" are now 90% complete. The City and Advantage Civil Design Group, LLC are pleased to present this project to the Technical Advisory Committee, Citizens Advisory Committee, and the District's Board for approval.

The following project information is being submitted to comply with NRS 543.580.

HEMENWAY SYSTEM, PHASE IIA IMPROVEMENTS

Project History and Description: The improvements consist of flood water facilities including: construction to install riprap erosion protection on an existing berm; increase existing inlet capacity including concrete aprons/flatwork; expansion of an existing sediment basin with associated riprap; gabion baskets and concrete aprons/flatwork; maintenance access roads; new sediment basin and concrete lining of an existing natural channel; replacement of existing storm drains with 12'x4' and 8'x4' reinforced concrete box culverts to increase capacity and other appurtenances as may be necessary to control floodwaters.

This project includes the construction of the following:

- Grading
- Concrete aprons, curbs, cutoff walls and flatwork
- Grated inlets
- 10' wide bottom trapezoidal concrete channel and transitions
- Access road improvements
- 18" and 24" RCP and 49"x32" HERCP storm drains and associated appurtenances
- 12'x4' and 8'x4' precast reinforced concrete box culverts and associated appurtenances
- Expansion of existing and construction of new sediment basins

- Loose and grouted rip rap erosion protection
- Gabion baskets
- Rail fence
- Guardrail

<u>Project Cost</u>: A detailed cost estimate for construction is attached as Exhibit "B". Project costs are estimated to be:

Design (Phases IIA & IIB)	\$	730,000.00
Environmental Mitigation	\$	15,000.00
Construction Management	\$	175,000.00
Construction	\$:	2,047,694.00
TOTAL	\$ 2	2,967,694.00

- Outside Funding Sources: There are no other funding sources for this project.
- <u>Project Construction Schedule</u>: If funding were made available today, listed below are the estimated dates of construction of the project.

Award of Bid Date

Construction Start Date

July 2017

Project Duration

- Cash Flow Projection: Cash Flow Projection has been provided.
- Right-of-Way: The City of Boulder City owns all the land for this project except for the work in the US93 right-of-way (ROW). A Nevada Department of Transportation (NDOT) permit has been obtained for the work proposed in the US93 ROW.
- Economic Benefit: This project is a portion of the Clark County Regional Flood Control
 District's (CCRFCD) Master Plan. In September of 2005, CCRFCD received the
 document titled "Benefit to Cost Analysis of Capital Programs" prepared by Hobbs, Ong
 & Associates, Inc., Restrepo Consulting Group/Applied Market Analysis, Post, Buckley,
 Schuh & Jernigan, Inc. and Public Financial Management, Inc.

The report concludes, "the quantifiable public benefits associated with flood control projects, when compared to costs, show that flood control projects have provided a return of \$2.21 for each dollar expended. When those benefits that are not readily quantifiable are taken into consideration, the contribution that these facilities provide to the welfare of Clark County's residents and the vitality of the local economy increases beyond the

calculated ratio. It is expected that the benefit to cost ratio of the District construction program will remain at a level that approximates 2 to 1 through buildout of the Master Plan and over the useful life of the facilities."

- Environmental Requirements: All environmental requirements have been met. Regional General Permit No. 7 has been authorized by the Army Corps of Engineers and the Nevada Division of Environmental Protection has granted the 401 Water Quality Certification.
- <u>Project Enhancements</u>: No opportunities for project enhancements are proposed at this time.

If you have any questions, please contact the undersigned at (702) 293-9200.

If at any time during the term of this Contract the entity determines that a portion of the funds provided pursuant to this Contract will not be needed for the project, then the entity will notify the District in writing of the amount of funds that are not anticipated to be used for the project. Upon receipt of said notification the District's obligation to pay the maximum amount set forth herein will automatically be reduced by the amount specified in the notification.
- 5. A written request must be made to the DISTRICT and approved by the Board to reallocate funds between phases of the project. No other approval by the Lead Entity is required.
- 6. A written request must be made to the DISTRICT and a Supplemental Interlocal Contract approved by the Board to increase the total cost of the contract noted above prior to payment of any additional funds.

SECTION III - GENERAL

- 1. The Clark County Regional Flood Control District shall be shown on the title sheet of both the plans and the specifications as the funding agency.
- 2. The CITY will use its best efforts to award the bid for this project by June, 2017. Prior to submission of the first payment request, the Entity will submit to the District a construction schedule and cash flow projection. The CITY will take all reasonable steps possible to avoid delays in the construction of DISTRICT funded projects. Project delays more than four months, as measured from the award date, may be subject to a formal review by both the Technical Advisory Committee and the Board. At the review, the CITY will have an opportunity to present information relative to the delays, measures taken to avoid the delays and the likelihood of those delays continuing. The Board will make a determination, in view of the delays and limited available funding, whether project funding should continue. In the case that the Board chooses to discontinue funding, the Board may cancel any Interlocal Contract(s) associated with the project and discontinue

funding for the remainder of the project. Funding already spent or appropriated by the CITY will not be required to be refunded to the DISTRICT. Project funding can be reconsidered at any time when the CITY can demonstrate that the project can proceed on an acceptable schedule.

- 8. Purchases of right-of-way in excess of that actually needed for construction will not be allowed unless a comparison between the cost of excess acquisition and needed acquisition, including damages, indicates that benefits from such a transaction would result. Title to residual property will be vested in the name of the CITY. Revenues derived from the sale of these properties, less the cost of the sale of these properties, will be forwarded to the DISTRICT.
- 9. Administrative settlements and acceptance of counter offers involving right-of-way may only be made following a review and approval by the DISTRICT.

Up to the limits set forth in NRS Chapter 41, the CITY will indemnify and defend the DISTRICT against and from any and all claims and demands of whatsoever nature which arises out of allegations of negligence or misconduct of CITY officers, employees or agents, related to or under this Contract which results from injury to or death of any persons whomsoever, or against and from damage to or loss or destruction of property.
- 14. Any costs found to be improperly allocated to this PROJECT will be refunded by the CITY to the DISTRICT.
