TO PREPARE A MASTER PLAN UPDATE FOR THE CITY OF BOULDER CITY**

The Clark County Regional Flood Control District (District) is requesting proposals from engineering firms desiring to provide consulting services to prepare a Master Plan Update for the City of Boulder City.

Interested consulting firms must obtain a proposal package which details format requirements at the Regional Flood Control District Office at 600 South Grand Central Parkway, Suite 300, Las Vegas, Nevada, 89106-4511 or download at www.regionalflood.org. Proposals will be received up to the hour of 4:00 p.m., prevailing local time, on August 3, 2017. **LATE SUBMITTALS WILL NOT BE ACCEPTED!**

PROJECT DESCRIPTION

The District is required by statute (NRS 543.596) to update the Master Plan at least once every five years. The Boulder City Master Plan was last updated and adopted by the Board on July 11, 2013. Preparation of the Master Plan Update for the City of Boulder City will involve: a thorough review of the current Master Plan; updating inventories of existing facilities, hydrologic and hydraulic models, land use information, costs, graphics, databases, GIS coverages; review of flood control related engineering data developed for land development and public works projects; re-evaluation of flood control alternatives and recommended plans; re-evaluation of environmental considerations. The July 2013 Master Plan will be the basis for the update. The information derived from the above activities will be used to develop a cohesive, independent document. A primary final product will be Master Plan Information in electronic form, which can be readily incorporated into the District's GIS system.

FORMAT REQUIREMENTS

Interested consulting firms are requested to submit four (4) copies of their proposal. The proposals will be received up to the hour of 4:00 p.m., prevailing local time, on August 3, 2017, at the District offices located at 600 South Grand Central Parkway, Suite 300, Las Vegas, Nevada, 89106-4511. Submittals must be clearly labeled "ATTENTION: Boulder City Master Plan Update - Proposal to Provide Services". Please direct any questions you might have to Andrew Trelease (702) 685-0000.

To be considered for evaluation, proposals must follow the format prescribed below.

Part 1. Cover letter (two page maximum)

Part 2. Up to five (5) pages of standard typewritten text is allowed to describe what talents, skills, experience, expertise and equipment the consultant has to offer with respect to flood control planning, engineering and geographic information systems (GIS) development and related automated mapping/data base tools. The discussion should include a summary of project understanding, proposed approach and descriptions of past performance in management, cost control, timely performance and thoroughness of work on similar projects. Facing pages may be used for pictures, charts, graphs, or other graphics with minimal text if desired.

Part 3. Organizational Chart

Part 4. Resumes of key personnel

Part 5. Flood Control - Statement of Qualifications (Forms Attached). Item 13, flood control experience, will be reviewed for demonstration of experience with flood control planning, engineering, GIS and related automated mapping/data base tools.

Part 6. Corporate brochures may be attached to the Proposal (Optional).

Proposals will be evaluated based on demonstration of the following:

- Understanding of the factors involved in preparation and coordination of a Master Plan Update.
- Ability to coordinate and schedule work with local, state and federal agencies.
- Experience of the firm and key personnel in hydrologic/hydraulic/sediment transport modeling, flood control planning/design, the use of GIS and related automated mapping/data base tools and the ability to compile information and perform the appropriate engineering analyses.

- Ability to staff project with experienced personnel and availability of staff for this project.
- Past technical and project management performance on similar projects.

Submittals WILL be disqualified from evaluation for the following reasons:

- Submittals received after 4:00 p.m., prevailing local time on August 3, 2017. THERE WILL BE NO EXCEPTIONS TO THIS DEADLINE.
- Failure to follow the format outlined above.
- Failure to demonstrate that the firm has a Nevada registered professional engineer in direct responsible supervision of the work to be performed (NRS 625.240).

This Request for Proposals does not commit the Clark County Regional Flood Control District to pay any costs incurred in the submittal of your Proposal. This Request for Proposals does not commit the Clark County Regional Flood Control District to procure or contract respondent's services. The Clark County Regional Flood Control District reserves the right to reject any or all firms if deemed to be in the best interest of the District.

SUBJECT: LOCAL DRAINAGE IMPROVEMENTS FOR KATIE AVENUE STORM DRAIN
PETITIONER: DENIS CEDERBURG, DIRECTOR OF PUBLIC WORKS
RECOMMENDATION OF PETITIONER: IT IS RECOMMENDED THAT THE CLARK COUNTY REGIONAL FLOOD CONTROL DISTRICT RECEIVE A PRESENTATION AND APPROVE THIS INTERLOCAL CONTRACT FOR CONSTRUCTION OF THE LOCAL DRAINAGE IMPROVEMENTS FOR KATIE AVENUE STORM DRAIN - CLD19A17 (FOR POSSIBLE ACTION)

FISCAL IMPACT:

\$ 376,406.50	Clark County
<u>\$ 994,016.50</u>	CCRFCD FY 2017/18
\$ 1,370,423.00	Total

BACKGROUND:

The Katie Avenue Storm Drain is a local drainage project that was submitted to the District for consideration on April 14, 2017. The project complies with the District's policies for Local Drainage projects and has staff approval for funding. The project drainage area boundary is limited to Hualapai Way to the west, Desert Inn Road to the north, Katie Avenue to the south and Fort Apache Road to the east. Katie Avenue, a minor collector street, is located south of Twain Avenue between Hualapai Avenue and Fort Apache Road. Historically, this area has been subject to extra maintenance due to storm events and excess irrigation of landscape. This project will convey flows into the existing regional storm drain system in Fort Apache Road to help alleviate the flooding problems and foul odors that have plagued the area. The project will include drop inlets, manholes, lateral connections, and a 36-inch reinforced concrete pipe (RCP) storm drain which will connect the existing 36-inch RCP at the intersection of Katie Avenue and Grand Canyon Drive to the existing 36-inch lateral of the regional flood control facility near Fort Apache Road.

Matching funds were recently approved on July 5, 2017 by the Board of County Commissioners with the adoption of the FY 2017/18 Budget. A project presentation will be given by representatives from Clark County staff.

WITNESSETH

WHEREAS, pursuant to Chapter 543 of the Nevada Revised Statutes, the DISTRICT may approve a project to design and construct flood control improvements, and;

WHEREAS, the COUNTY is proposing to design and construct flood control improvements as part of the Katie Avenue Storm Drain project (This project will convey runoff from local neighborhoods into the existing regional storm drain system in Fort Apache Road to help alleviate the flooding problems and foul odors that have plagued the area. The project will include a storm drain system to connect the existing 36-inch RCP at the intersection of Katie Avenue and Grand Canyon Drive to the existing 36-inch lateral of the regional flood control facility near Fort Apache Road), which consist of flood water facilities including pipes, channels, dikes, energy dissipators, channel structures, channel access and other appurtenances as may be necessary to control floodwaters, hereinafter defined as PROJECT, and;

WHEREAS, the PROJECT is identified and shown on the attached Exhibit "A"; and

NOW, THEREFORE, in consideration of the covenants, conditions, contracts, and promises of the parties hereto, the DISTRICT and the COUNTY agree to the following:

SECTION I - SCOPE OF PROJECT

This INTERLOCAL CONTRACT applies to all costs for construction to place in service Katie Avenue Storm Drain. The basic improvements shall consist of storm runoff conveyance facilities including pipes, drop inlets, roadside grading, connection to existing facilities and other appurtenances as may be necessary to control, collect, and convey storm runoff. The improvements shall be funded through DISTRICT funds as herein described. This project is further identified and shown on the attached Exhibit "A".

SECTION II - PROJECT COSTS

The DISTRICT agrees to fund PROJECT costs within the limits specified below:

1. The District's share of construction costs shall not exceed \$994,016.50 or

100 percent of construction of the first quarter mile and 50 percent for the remainder of the project, whichever is less.

2. The total cost of this CONTRACT shall not exceed \$994,016.50, which includes all Items described in Paragraph one above, and funds will be made available after July 13, 2017.
3. If at any time during the term of this contract the entity determines that a portion of the funds provided pursuant to this Contract will not be needed for the project, then the entity will notify the District in writing of the amount of funds that are not anticipated to be used for the project. Upon receipt of said notification the District's obligation to pay the maximum amount set forth herein will automatically be reduced by the amount specified in the notification.

SECTION III – GENERAL

1. The Clark County Regional Flood Control District shall be shown on the title sheet of both the plans and the specifications as the funding agency.
2. The COUNTY will use its best efforts to award the bid for this project by December 30, 2017. The COUNTY will take all reasonable steps possible to avoid delays in the construction of DISTRICT funded projects. Project delays more than four months, as measured from the award date, may be subject to a formal review by both the Technical Advisory Committee and the District Board of Directors. At the review, the COUNTY will have an opportunity to present information relative to the delays, measures taken to avoid the delays and the likelihood of those delays continuing. The Board will make a determination, in view of the delays and limited available funding, whether project funding should continue. In the case that the Board chooses to discontinue funding, the Board may cancel any Interlocal Contract(s) associated with the project and discontinue funding for the remainder of the project. Funding already spent or appropriated by the COUNTY will not be required to be refunded to the District. Project funding can be reconsidered at any time when the COUNTY can demonstrate that the project can proceed on an acceptable schedule.
3. The COUNTY will comply with the Local Purchasing Act, Chapter 332 and Public Works Projects, Chapter 338, of Nevada Revised Statutes.
4. The COUNTY, its employees and representatives shall at all times comply with all applicable laws, ordinances, statutes, rules and regulations in effect at the time work is performed on the PROJECT.

SR 163 AT CASINO DRIVE – PROJECT NO. FLAU04B

Dear Mr. Parrish:

The design plans and specifications prepared by GCW Incorporated for the above-mentioned project, indicated on "Exhibit A", are now 90% complete. The County is pleased to present this project to the Technical Advisory Committee, Citizens Advisory Committee, and the District's Board for approval.

The following project information is being submitted to comply with NRS 543.580.

- **Project History and Description:** Project includes 100-year Regional facilities east and west of, and across the Casino Drive right of way adjacent to S.R. 163 that discharge eastward to the Colorado River. The 100-year flows in the Casino Drive Storm Drain are 685 cubic feet per second. The proposed facilities include 84-inch RCP, 8'X5' RCB, a junction and collection structure that replaces the existing energy dissipation structure and collects local flows, and a stilling basin structure that will be installed at the outlet just upstream of the Colorado River. Also included are small amounts of 24-inch and 36-inch RCP for local storm drain runoff.
- **Project Cost:** A detailed cost estimate for construction is attached as Exhibit "B". Project costs are estimated to be:

Design	\$	386,500
Right-of Way	\$	11,500
Environmental	\$	75,500
Construction	\$	1,060,000
Construction Management	\$	92,000
TOTAL	\$	<u>1,625,500</u>

- **Outside Funding Sources:** None
- **Projected Construction Schedule:** If funding were made available today, listed below are the estimated dates for construction of the project:

Award of Bid Date	November-17
Construction Start Date	January-18
Project Duration	Six months

- **Right-of-Way:** The necessary rights-of-way have been obtained.
- **Cash Flow Projection:** Attached is a cash flow projection for construction.
- **Economic Benefit:** This project is a portion of the Clark County Regional Flood Control District's (CCRFCD) Master Plan. In September of 2005, CCRFCD received the document titled "Benefit to Cost Analysis of Capital Programs" prepared by Hobbs, Ong & Associates, Inc., Restrepo Consulting Group/Applied Market Analysis, Post, Buckley, Schuh & Jernigan, Inc. and Public Financial Management, Inc.

The report concludes, "the quantifiable public benefits associated with flood control projects, when compared to costs, show that flood control projects have provided a return of \$2.21 for each dollar expended. When those benefits that are not readily quantifiable are taken into consideration, the contribution that these facilities provide to the welfare of Clark County's residents and the vitality of the local economy increases beyond the calculated ratio. It is expected that the benefit to cost ratio of the District construction program will remain at a level that approximates 2 to 1 through buildout of the Master Plan and over the useful life of the facilities."

- **Environmental Requirements:** Clark County has met all the necessary environmental requirements for this project.
- **Project Enhancements:** None.

If you have any questions, or require any additional information, please call me at (702) 455-6075.

BACKGROUND:

The SR 163 at Casino Drive, Facility Numbers LUBC 0000, 0001 and 0006, is located adjacent to State Route 163, between the existing facility and the Colorado River. This project will benefit the community by conveying flows to the Colorado River and mitigating flooding in Casino Drive, in the S.R. 163/Casino Drive intersection, and decreasing runoff to the Laughlin/Bullhead City Bridge. The waiver of the engineering cap is requested due to the extraordinary amount of coordination and permitting effort required to obtain the agency approvals for the project. Coordination and/or permits were required from the Bureau of Reclamation, United States Army Corps of Engineers, Nevada Department of Transportation, Nevada Division of State Lands, Nevada Department of Environmental Protection(Bureau of Water Pollution), and Nevada Department of Environmental Protection(Water Quality).

**INTERLOCAL CONTRACT FOR
SR 163 AT CASINO DRIVE**

THIS INTERLOCAL CONTRACT, made and entered into this ____ day of _____, 2017, by and between the Clark County Regional Flood Control District, hereinafter referred to as “DISTRICT”, and the County of Clark, hereinafter referred to as “COUNTY”.

W I T N E S S E T H

WHEREAS, pursuant to Chapter 543 of the Nevada Revised Statutes, the DISTRICT may approve a project to design and construct flood control improvements; and

WHEREAS, the flood control improvements proposed herein are generally described in the 2014 Master Plan Update for Laughlin, Nevada, as Structure No.’s LUBC 0000, 0001 and 0006, hereinafter referred to as “Project”; and

WHEREAS, the Project is identified and shown on the attached Exhibit “A”; and

WHEREAS, the Project has been approved by the DISTRICT on its annual Ten Year Construction Program; and

WHEREAS, the Project has regional flood control significance and is located in the unincorporated area of Clark County outside of the Las Vegas Valley.

NOW, THEREFORE, in consideration of the covenants, conditions, contracts, and promises of the parties hereto, the DISTRICT and the COUNTY agree to the following:

SECTION I - SCOPE OF PROJECT

This Interlocal Contract applies to construction and construction management associated with the SR 163 at Casino Drive. The basic improvements shall consist of flood water facilities including pipes, channels, dikes, energy dissipators, channel structures, channel access, and other appurtenances as may be necessary to control floodwaters. The improvements shall be funded through DISTRICT funds as herein described. The Project is further identified and shown on the attached Exhibit “A.”

SECTION II - PROJECT COSTS

The DISTRICT agrees to fund Project costs within the limits specified below:

1. Construction in an amount not to exceed \$1,060,000.00.

2. Construction management in an amount not to exceed \$92,000.00.
3. The total cost of this Interlocal Contract shall not exceed \$1,152,000.00, which includes all the items described in the paragraphs above.
4. If at any time during the term of this contract the entity determines that a portion of the funds provided pursuant to this Contract will not be needed for the project, then the entity will notify the District in writing of the amount of funds that are not anticipated to be used for the project. Upon receipt of said notification the District's obligation to pay the maximum amount set forth herein will automatically be reduced by the amount specified in the notification.
5. A written request must be made to the DISTRICT and approved by the Board to reallocate funds between phases of the Project. No other approval by the Lead Entity is required.
6. A written request must be made to the DISTRICT and a supplemental interlocal contract approved by the Board to increase the total cost of the contract noted above prior to payment of any additional funds.

SECTION III - GENERAL

1. The Clark County Regional Flood Control District shall be shown on the title sheet of both the plans and the specifications as the funding agency.
2. The COUNTY will use its best efforts to award the bid for this project by November 15, 2017. Prior to submission of the first payment request, the COUNTY will submit to the DISTRICT a construction schedule and cash flow projection. The COUNTY will take all reasonable steps possible to avoid delays in the construction of DISTRICT funded projects. Project delays more than four (4) months, as measured from the award date, may be subject to a formal review by both the Technical Advisory Committee and the DISTRICT Board of Directors. At the review, the COUNTY will have an opportunity to present information relative to the delays, measures taken to avoid the delays, and the likelihood of those delays continuing. The Board will make a determination, in view of the delays and limited available funding, whether Project funding should continue. In the case that the Board chooses to discontinue funding, the Board may cancel any interlocal contract(s) associated with the Project and discontinue funding for the remainder of the Project. Funding already spent or appropriated by the COUNTY will not be required to be refunded to the DISTRICT. Project funding can be reconsidered at any time when the COUNTY can demonstrate that the Project can proceed on an acceptable schedule.
3. The COUNTY will comply with the Local Purchasing Act, Chapter 332, and Public Works Projects, Chapter 338 of the Nevada Revised Statutes.

4. The COUNTY, its employees, and representatives shall at all times comply with all applicable laws, ordinances, statutes, rules, and regulations in effect at the time work is performed on the Project.
5. The COUNTY will require appropriate financial security for the construction of the Project.
6. The COUNTY shall provide all impacted entities and the DISTRICT with the opportunity to provide the COUNTY with input relative to the following processes: scope of services development; consultant selection; design; construction and maintenance review; and monitoring of the effectiveness and impacts of facilities on flood flows.
7. Applicable portions of the current editions of the Policies and Procedures, the Hydrologic Criteria and Drainage Design Manual, and Uniform Regulations for the Control of Drainage adopted by the DISTRICT will apply in developing this Project unless specifically superseded by this Contract.
8. Purchases of right-of-way in excess of that actually needed for construction will not be allowed unless a comparison between the cost of excess acquisition and needed acquisition, including damages, indicates that benefits from such a transaction would result. Title to residual property will be vested in the name of the COUNTY. Revenues derived from the sale of these properties, less the cost of the sale of these properties, will be forwarded to the DISTRICT.
9. Administrative settlements and acceptance of counter offers involving right-of-way may only be made following a review and approval by the DISTRICT.
10. The DISTRICT will pay the COUNTY, or make payment directly to its contractor or its consultant, each month for Project costs as outlined in SECTION II - PROJECT COSTS. Invoices must identify and allocate all costs to the categories noted below:
 - A. Right-of-way acquisition including appraisals, title and escrow, negotiations, legal fees, recording fees, etc.
 - B. Predesign engineering (all work prior to design, excluding right-of-way).
 - C. Design engineering.
 - D. Construction engineering.
 - E. Construction (all work after award of construction contract).
 - F. Environmental: costs incurred by the entity for the preparation of environmental documentation applicable to the Project and costs incurred for the implementation of mitigation measures provided in an environmental document (e.g. EIS or EA).

IN WITNESS WHEREOF, this Interlocal Contract is hereby executed as of the date first set forth above.

FISCAL IMPACT: None by this action.

BACKGROUND:

The Pittman North Detention Basin and Outfall (PTNO 0180, 0181 and 0182) is identified in the 2013 Clark County Regional Flood Control District (CCRFCD) Master Plan Update (MPU) as the Pittman North Detention Basin and Outfall System. The project has been divided into three phases in order to construct segments of the project in conjunction with Regional Transportation Commission projects to save on shared costs.

Phase I of the project (PTNO 0190 and 0195) consists of the levee/inflow channel and reinforced concrete box (RCB) culverts that will be constructed in conjunction with the widening of Volunteer Road from Executive Airport Road to Las Vegas Boulevard. The project includes the following facilities: approximately 1,500 lineal feet of earthen channel with riprap protection adjacent to Volunteer Road that has a bottom width of 50 feet, an average depth of 10 feet, and 2H:1V side slopes; the detention basin inlet culvert consisting of four (4) 8-foot by 24-foot RCB with an approximate length of 200 feet, local storm drain required for the RFCD facilities to function efficiently, and appurtenant facilities. Phase I is located on Volunteer Road between Executive Airport Drive and Las Vegas Boulevard and construction is complete.

Phase II of the project (PTWA 0884) fills in the gap between the existing three (3) 12-foot by 8-foot RCB culvert under St Rose Parkway (PTWA 0905) and the BLM 0115 Channel (PTWA 0862) that will be constructed in conjunction with Starr Road from St Rose Parkway to Las Vegas Boulevard. The project consists of a transition structure and approximately 1,100 lineal feet of 8-foot by 8-foot RCB. Phase II is located on Starr Road between St Rose Parkway and Bermuda Road and is currently under construction as a separate project.

BACKGROUND:

The Pittman North Detention Basin and Outfall (PTNO 0180, 0181 and 0182) is identified in the 2013 Clark County Regional Flood Control District (CCRFC) Master Plan Update (MPU) as the Pittman North Detention Basin and Outfall System. This section of the project consists of construction of the detention basin (PTNO 0182), PMF Spillway (PTNO 0181) and an outfall storm drain in Bermuda Road extending to St. Rose Parkway (PTNO 0180). The Phase I facilities south of St Rose Parkway consisting of the Pittman North Detention Basin inflow channel and culvert underneath Volunteer Road are complete. The Phase II facility is located north of St. Rose Parkway and consists of approximately 1,100 linear feet of dual 8-foot x 8-foot reinforced concrete box (RCB) culverts and is currently under construction with Starr Road improvements.

The design drawings and specifications for Phase III are 90% complete and all necessary right-of-way has been acquired. The Section 8 Analysis has been accepted by the District; the Section 404 permit was not required by the U.S. Army Corps of Engineers; and the Temporary Working in Waterways Permit has been issued by the Nevada Division of Environmental Protection. The NDOT Encroachment and State Dam Safety permits have been issued.

This project is included in Year 3 of the 10-Year Construction Program.

INTERLOCAL CONTRACT

PITTMAN NORTH DETENTION BASIN AND OUTFALL, PHASE III

THIS INTERLOCAL CONTRACT made and entered into as of the _____ day of _____, 2017, by and between the Clark County Regional Flood Control District hereinafter referred to as "DISTRICT" and City of Henderson, hereinafter referred to as "CITY".

WITNESSETH

WHEREAS, pursuant to Chapter 543 of the Nevada Revised Statutes, the DISTRICT may approve a project to design and construct flood control improvements, and;

WHEREAS, the flood control improvements proposed herein are the same as those generally identified in the 2013 Master Plan Update Structure No. PTNO 0180, 0181 and 0182, hereinafter referred to as "PROJECT"; and

WHEREAS, the PROJECT is identified and shown on the attached Exhibit "A"; and

WHEREAS, the PROJECT has been approved by the DISTRICT on its Ten Year Construction Program; and

WHEREAS, the PROJECT has regional flood control significance and is located in the same hydrographic area as the CITY, and the COUNTY OF CLARK.

NOW, THEREFORE, in consideration of the covenants, conditions, contracts, and promises of the parties hereto, the DISTRICT and the CITY agree to the following:

SECTION I - SCOPE OF THE PROJECT

This INTERLOCAL CONTRACT applies to construction engineering and construction costs associated with the Pittman North Detention Basin and Outfall, Phase III project. The

improvements shall be funded through DISTRICT funds as herein described. This project is further identified and shown on the attached Exhibit "A".

SECTION II - PROJECT COSTS

The DISTRICT agrees to fund project costs within the limits specified below:

1. The construction engineering costs shall not exceed \$1,000,000.
2. Construction costs shall not exceed \$18,669,494.
3. The total cost of this Contract shall not exceed \$19,669,494 which includes all the items described in the paragraphs above.
4. If at any time during the term of this contract the entity determines that a portion of the funds provided pursuant to this Contract will not be needed for the project, then the entity will notify the District in writing of the amount of funds that are not anticipated to be used for the project. Upon receipt of said notification the District's obligation to pay the maximum amount set forth herein will automatically be reduced by the amount specified in the notification.
5. A written request must be made to the DISTRICT and approved by the Board to reallocate funds between phases of the project. No other approval by the Lead Entity is required.
6. A written request must be made to the DISTRICT and a Supplemental Interlocal Contract approved by the Board to increase the total cost of the contract noted above prior to payment of any additional funds.

SECTION III - GENERAL

1. The Clark County Regional Flood Control District shall be shown on the title sheet of both the plans and the specifications as the funding agency.

2. The CITY will use its best efforts to award the bid for this project by August 2017. Prior to submission of the first payment request, the Entity will submit to the District a construction schedule and cash flow projection. The CITY will take all reasonable steps possible to avoid delays in the construction of DISTRICT funded projects. Project delays more than four months, as measured from the award date, may be subject to a formal review by both the Technical Advisory Committee and the Board. At the review, the CITY will have an opportunity to present information relative to the delays, measures taken to avoid the delays and the likelihood of those delays continuing. The Board will make a determination, in view of the delays and limited available funding, whether project funding should continue. In the case that the Board chooses to discontinue funding, the Board may cancel any Interlocal Contract(s) associated with the project and discontinue funding for the remainder of the project. Funding already spent or appropriated by the CITY will not be required to be refunded to the DISTRICT. Project funding can be reconsidered at any time when the CITY can demonstrate that the project can proceed on an acceptable schedule.
3. The CITY will comply with the Local Purchasing Act, Chapter 332 and Public Works Projects, Chapter 338, of the Nevada Revised Statutes.
4. The CITY, its employees, and representatives shall at all times comply with all applicable laws, ordinances, statutes, rules, and regulations in effect at the time work is performed on the PROJECT.
5. The CITY will require appropriate financial security for the construction of the PROJECT.
6. The CITY shall provide all impacted entities and the DISTRICT with the opportunity to provide the CITY with input relative to the following processes: scope of services

development; consultant selection; design, construction and maintenance review; and monitoring of the effectiveness and impacts of facilities on flood flows.

7. Applicable portions of the current editions of the Policies and Procedures, the Hydrologic Criteria and Drainage Design Manual, and Uniform Regulations for the Control of Drainage adopted by the DISTRICT will apply in developing this PROJECT unless specifically superseded by this CONTRACT.
8. Purchases of right-of-way in excess of that actually needed for construction will not be allowed unless a comparison between the cost of excess acquisition and needed acquisition, including damages, indicates that benefits from such a transaction would result. Title to residual property will be vested in the name of the CITY. Revenues derived from the sale of these properties, less the cost of the sale of these properties, will be forwarded to the DISTRICT.
9. Administrative settlements and acceptance of counter offers involving right-of-way may only be made following a review and approval by the DISTRICT.
10. The DISTRICT will pay the CITY, or make payment directly to its contractor or its consultant, each month for project costs as outlined in SECTION II - PROJECT COSTS.

Invoices must identify and allocate all costs to the categories noted below:

- a. Right-of-Way acquisition including appraisals, title and escrow, negotiations, legal fees, recording fees, etc.
- b. Predesign engineering (all work prior to design, excluding right-of-way)
- c. Design Engineering
- d. Construction Engineering
- e. Construction (all work after award of construction contract)
- f. Environmental: costs incurred by the Lead Entity for the preparation of environmental documentation applicable to the project and costs incurred for the

implementation of mitigation measures provided in an environmental document (e.g., EIS OR EA).

- g. Other including landscaping, flood insurance rate map amendments or revisions, etc.
- 11. Accurate documentation of all work performed and payments made will be maintained by the CITY for a period of three (3) years in hard copy form after final project approval and payment. Following the three-year period, the CITY shall keep records for permanent storage in original form, in microfilm/fiche media, or an electronic format.
- 12. The DISTRICT reserves the right to review and/or audit all records pertaining to all projects, both during and after project completion.
- 13. Up to the limits set forth in NRS Chapter 41, the CITY will indemnify and defend the DISTRICT against and from any and all claims and demands of whatsoever nature which arises out of allegations of negligence or misconduct of CITY officers, employees or agents, related to or under this Contract which results from injury or death of any persons whomsoever, or against and from damage to or loss or destruction of property.
- 14. Any costs found to be improperly allocated to this PROJECT will be refunded by the CITY to the DISTRICT.

15. The items covered in SECTION II - PROJECT COSTS must be completed to the satisfaction of the DISTRICT prior to December 31, 2018. The DISTRICT may, at any time thereafter, grant extensions or terminate this CONTRACT after thirty (30) days notice.
